

SUNDAY, 2nd February

Wind E.S.E - Force 0. Breezy & warm. Rainfall at night mostly '33.

Church in Rest House, after which I instructed community in course of action to be taken in case anybody seen at shelter or a landing on the island. This is not the place to record such matters but it might be mentioned that huge delight was caused by instructions to treat anybody with little respect who panics. Certain sworn enemies are quite obviously looking forward to an opportunity of assaulting each other without fear of the law!

MONDAY, 3rd February
