

Patricks Cove
June 18th 1974

Mr. Ralph Martin

Dear Sir

I know you will be surprised to hear from me. I am writing you concerning the piece of metal which I found in 1932. As you remember I gave you a portion of this to you. and this was in 1947. and you presented it to a place in England: and they in turn wrote me a letter saying it was undoubtedly a part of the under carriage of the plane called either the Blue Bird or the White Bird. perhaps you can find out which plane they were searching for here in 1932-8-

at the present time there is a group searching for it in the Grand where I found this plane and they are trying to deny that I was the first to find this part. and trying to say it was years later. so if you could write me a letter concerning this transaction between you and I in 1947 this would prove I am right in what I am saying.

Marshallford Peters claims she can also give me a letter that she can remember me having it and giving it to you. And perhaps you could contact some person who is still around where you presented it. I trust you will be kind enough to write me and do what you can for me in this respect.
