**ARMY-NAVY AERONAUTICAL SPECIFICATION
MARKING AND TAGGING; AIRFRAME, ENGINE,
AND ACCESSORY MAINTENANCE PARTS**

This specification was approved on the above date by joint action of the War and Navy Departments, for use in the procurement of aeronautical supplies and shall become effective immediately upon issue.

A. APPLICABLE SPECIFICATIONS.

A-1. The following specification of the issue in effect on date of invitation for bids shall form a part of this specification:

A-1a. Federal Specification.-

UU-T-81 Tag, Shipping and Stock

B. PURPOSE.

B-1. This specification covers the requirements for marking and tagging required by the Government for identification of maintenance assemblies, maintenance parts and detail repair parts for complete airplanes, engines, propellers, and airplane and engine accessories procured as maintenance parts.

C. MATERIAL AND WORKMANSHIP.

C-1. Materials.- The material shall be as specified herein. When materials are used that are not specifically designated, they shall be entirely suitable for the purpose intended.

C-2. Workmanship.- The workmanship shall be of a quality comparable to high grade commercial practice.

D. GENERAL REQUIREMENTS.

D-1. See section E.

THIS DOCUMENT CONTAINS 5 PAGES.
