

# LOCKHEED AIRCRAFT CORPORATION

## INTER-DEPARTMENTAL COMMUNICATION

Date May 21, 1936

To Mr. Chappellet

Subject: Western Electric radio equipment for Number 1055, installation of:

Remarks: The following Western Electric units are to be installed in the respective locations as noted.

- 4 B power unit under pilot seat.
- 27 A control unit in control box lid.
- 20 B receiver on top of gas tank (cabin).
- 13 C transmitter in cabinet behind tanks.
- 2 transmitting keys with brackets in cock pit.

The equipment as shown above requires a Cannon tuning unit to function properly and is not to be furnished by Western Electric. #300

Any additional radio equipment desired by customer, such as Kruesi, Lear, etc., will require additional installation work.

Customer desires extra battery-to be furnished by him- installed in nose department. Will require extra switch in cock pit to allow either battery to be charged. #9800
